To Whom it May Concern

Re: Jason Smith

Edge Creative is a leading New Zealand Experiential Marketing Agency which has completed large scale projects in the Pacific region since its inception in 1994.

During this time we have engaged Jason to provide us with Music Composition and Arrangement and Live Performance services on a number of these projects. Jason is a very highly skilled improvisational musician and he has added significant value to every project he has been involved in with us. He is reliable and organised and works extremely well with others in a team.

Jason is able to quickly grasp the essence of a brief and deliver an excellent response to the same. He knows how to work to a budget and has excellent commercial integrity.

Jason is a wonderful person to work with, a great human being and he has my highest personal recommendation.

Yours faithfully

Phil Thompson
Managing Director
